

Portillo's Inc. Announces Offering of Class A Common Stock in "Synthetic Secondary" Transaction

March 7, 2023

CHICAGO, March 07, 2023 (GLOBE NEWSWIRE) -- Portillo's Inc. ("Portillo's" or the "Company") (Nasdaq: PTLO), the fast-casual restaurant concept known for its menu of Chicago-style favorites, today announced the launch of an underwritten public offering of 8,000,000 shares of Portillo's Class A common stock ("Class A common stock"). The underwriter has a 30-day option to purchase up to an additional 1,200,000 shares of its Class A common stock.

The proposed offering is considered non-dilutive, as Portillo's expects to use the net proceeds to (a) purchase limited liability company units of PHD Group Holdings LLC held by certain existing holders (and cancel the associated shares of the Company's Class B common stock (the "Class B common stock")) and (b) repurchase shares of Class A common stock from certain existing holders, each in a "synthetic secondary" transaction. As a result, Portillo's will not receive any proceeds from this offering. Upon close of the transaction, the Company's total common stock share count, comprised of shares of Class A and Class B common stock, will remain the same; however, the amount of shares of Class A common stock will increase by the same amount of the decrease in the number of shares of Class B common stock.

Morgan Stanley is acting as the sole underwriter of the offering.

The offering is being made pursuant to an effective shelf registration statement (including a prospectus) filed by Portillo's with the Securities and Exchange Commission ("SEC") to which this communication relates. Before you invest, you should read the prospectus in the shelf registration statement and other documents the Company has filed with the SEC for more complete information about the Company and the offering. The offering will be made only by means of a free writing prospectus, the prospectus and the related prospectus supplement.
